- A Parting Challenge

EPiC Mission

- EPiC efficiently shares knowledge and promotes collaboration and communication throughout the acquisition/procurement community to improve the quality of contracts supporting the DOE mission.

EPiC Vision

- EPiC serves as the central reference point or gateway to access DOE acquisition/procurement related information.

- Recognizing the need to improve acquisition information and knowledge sharing, DOE HQ developed the Acquisition Intranet (AI) tool on a Microsoft SharePoint platform, AI launched as a proof of concept in 2013.
- Decision to re-brand as EPiC and enhance capabilities
- The EPiC Sub-Working Group (ESWG) was established in February 2014
 - Confirm business requirements for the system
 - Develop a roadmap to increase AI adoption
 - Improve the usefulness of the tool

This week we are introducing the EPiC tool and recognizing the important contributions of the ESWG in helping us get to this point
